EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech	Indian Institute of Information Technology, Una	8.21 (Current)	2024–Present
Senior Secondary	CBSE Board	93.4%	2024
Secondary	CBSE Board	97.0%	2022

EXPERIENCE

Deccan AI

AI Evaluation Trainee

Feb 2026 – April 2026

platform.deccanexperts.ai

- Learned Preference Ranking, Prompt Engineering, and Action Extensions concepts from industry AI experts.
- Applied response evaluation and ranking methodologies on 5+ dummy project assessments.
- Improved prompt quality and analyzed AI-generated outputs for relevance, accuracy, and user alignment.

YesCity - Travel Assistance Platform

Tech Intern

August 2025 – Dec 2025

yescity.in

- Scraped and collected travel-related data from multiple websites, including tourist attractions, hidden gems, hotels, and location-based points of interest
- Assisted in integrating AI/ML concepts for travel recommendation and information retrieval systems.
- Collaborated with the technical team on data-driven solutions using Python, web scraping, and machine learning workflows.

PROJECTS

Sales Analytics Dashboard using Power BI

Jan. 2026

Data Analytics Project

- Cleaned and transformed raw sales data using Python, including handling missing values, removing duplicates, and standardizing data formats.
- Performed exploratory data analysis (EDA) to identify sales patterns, customer trends, and key business metrics.
- Developed an interactive Power BI dashboard featuring KPI cards, sales trend analysis, regional insights, and product performance visualization.

Duplicate Question Pair Detection using NLP and Machine Learning

Jun 2026

Python, NLP, Scikit-learn, XGBoost, Streamlit

[GitHub](#)

- Designed ML NLP-powered duplicate question detection system capable of identifying semantic similarity between user-generated question pairs.
- Engineered 22 handcrafted textual similarity features, including common word ratios, fuzzy matching scores, token-based overlaps, and longest common substring metrics.
- Trained ensemble learning models such as Random Forest and XGBoost on the Quora Question Pairs dataset, achieving approximately 80% classification accuracy.
- Integrated the trained model into a Streamlit web application for real-time inference and duplicate probability prediction.
- Applied text preprocessing, feature extraction, and machine learning pipelines to improve duplicate detection performance and user experience.

TECHNICAL SKILLS

- **Languages:** C, Python, SQL
- **Libraries:** NumPy, Pandas, Matplotlib, Seaborn
- **Data Analytics & Visualization :** Power BI, Data Cleaning, Data Analysis, Exploratory Data Analysis (EDA)
- **Machine Learning & AI:** Machine Learning, Natural Language Processing (NLP), Deep Learning Fundamentals, Transformers
- **Tools:** Git , Github

CERTIFICATIONS & ACHIEVEMENTS

- Solved 97+ DSA problems on [NeetCode](#), covering Arrays, Hashing, Two Pointers, Binary Search.
- Earned the [Oracle AI Foundations Certificate/Batch](#), demonstrating foundational AI/ML knowledge.
- Completed the [AI and Python Programming Certification](#) from Learn.DeepLearning.in.

POSITIONS OF RESPONSIBILITY

- **Google Campus Ambassador** Jul. 2025 – December 2025
Represented the Google Ambassador Program at the campus level
- **Campus Ambassador (Public Relations), IIT Roorkee E-Summit** Nov. 2025 – March 2026
Promoted entrepreneurship initiatives for E-Summit programs.
